Course Credit Policy

Definition

Course credit is defined under the National Code 2018 as:

“Exemption from enrolment in a particular part of the course as a result of previous study, experience or recognition of a competency currently held. This includes academic credit and recognition of prior learning (RPL).”

Policy Overview

Access Recognised Training Australia provides students with the opportunity to apply for course credit prior to enrolment or during the early stages of their course.

We recognise relevant prior study, work experience, and competencies that align with current training package requirements. Credit will be granted where appropriate evidence is provided and meets the required standards.

Applicants will be advised of the outcome of their application and invited to accept or decline the result of the assessment. A formal record of the granted course credit will be created, acknowledged by the student, and stored in their file.

Application Procedure

To apply for course credit, students must follow the steps below:

1. Obtain and complete Form 1 – Course Credit Application, available by request to admin@accessrt.edu.au
2. Submit Form 1 to Access Recognised Training Australia.
3. Access Recognised Training Australia will issue Form 2, which outlines the evidence requirements for each unit in which credit is being sought.
4. The applicant must complete Form 2 and return it along with the required supporting documents.

Required Evidence

Applicants must provide the following evidence:

- Certified copies (photocopies or scanned images) of original academic transcripts, verified by an authorised person as true copies.
- Subject outlines detailing content, learning outcomes, and duration for each subject or unit.

Incomplete applications may result in processing delays or rejection.

Assessment of Course Credit Applications

Course credit applications will be assessed in one or more of the following ways:

- Interview and document review conducted by the Principal or authorised staff to verify relevance and alignment with training package requirements.
- A challenge test, where appropriate, to assess the student's knowledge and practical skills relevant to the requested units.

Fee Adjustments for Granted Credit

If course credit is granted:

- Tuition fees equivalent to the value of the exempted unit(s), up to a maximum of 25% of the total course cost, will be deducted from the total tuition fees.
- Further exemptions may be granted at the discretion of the Principal, but the maximum allowable tuition fee reduction remains capped at 25%.

Recording of Credit

- All granted exemptions will be formally recorded on the student's academic transcript and result history.
- The student must sign (or otherwise formally accept) the record of course credit.

PRISMS Notification – Course Credit

Any course credit granted by Access Recognised Training Australia that results in a shortening of the student's course duration must be reported in the Provider Registration and International Student Management System (PRISMS) in accordance with the ESOS Act.

- If course credit is granted before the student visa is issued:
- The actual net course duration (as reduced by the credit) must be reflected in the Confirmation of Enrolment (CoE) issued for that student.
- If course credit is granted after the student visa is issued:
- The change to course duration must be reported via PRISMS within 14 days, in compliance with Section 19 of the ESOS Act.

Completion Within the Expected Duration of Study

Access Recognised Training Australia is committed to ensuring that all international students complete their course within the expected duration specified in their Confirmation of Enrolment (CoE). To support this:

- The progress of each student is regularly monitored to ensure they remain on track to complete their course on time.
- Students must not undertake more than 25% of their total course through distance and/or online learning.
- In each compulsory study period, students must be enrolled in at least one unit that is not delivered online or by distance.

Access Recognised Training Australia will only issue a new CoE to extend a student's course duration in limited and justifiable circumstances, such as:

- Compassionate or compelling circumstances (e.g. illness, bereavement)
- An approved intervention strategy for students at risk of not meeting course progress requirements
- Deferral or suspension of study granted in accordance with the provider's policies

Repeating Units of Study

If a student is required to repeat a unit due to not being assessed as competent:

- They are not required to maintain full-time enrolment during the repeat period.
- The student must pay an additional fee to repeat the unit. This fee will be determined upon written request by the student.
- Students are generally not permitted to repeat a unit more than once.

However, Access Recognised Training Australia may permit a student to repeat a unit more than once within a full-time course load if justified by:

- Medical reasons, supported by a certificate
- Exceptional circumstances beyond the student's control (e.g., personal tragedy, natural disaster)

These exceptions are assessed on a case-by-case basis, in line with the National Code and the principles of fairness and support.

Monitoring Course Attendance

Purpose

The purpose of this policy is to ensure Access Recognised Training Australia systematically monitors international students' compliance with student visa conditions relating to attendance, in accordance with the Education Services for Overseas Students (ESOS) Act 2000 and the National Code 2018.

Under Section 19 of the ESOS Act, Access Recognised Training Australia is required to report students who breach attendance requirements for CRICOS-registered courses.

Policy Statement

Access Recognised Training Australia is committed to:

- Monitoring, recording, and assessing the attendance of each overseas student enrolled in a CRICOS-registered course.
- Ensuring that students are informed of their attendance obligations under the student visa conditions.
- Identifying and supporting students at risk of breaching attendance requirements.
- Reporting students who fail to meet satisfactory attendance to the Department of Education via PRISMS where required.

Attendance Requirements

Students are required to maintain a minimum of 80% attendance in all scheduled course contact hours for each unit of study within their enrolment.

Students are made aware of this requirement during the orientation program, and through this policy provided in the International Student Handbook.

Monitoring Process

- Attendance is monitored weekly to identify students:
 - At risk of falling below the 80% threshold
 - Absent for more than five consecutive days without approval
- Attendance is recorded daily for all scheduled course contact hours in each CRICOS-registered course, including accredited vocational education and training (VET) programs.
- Students are counselled and contacted if they are at risk of breaching attendance requirements.
- Assessment of satisfactory attendance is conducted in accordance with internal attendance monitoring procedures.

Attendance Policy and Procedure Includes:

- Minimum attendance requirement: 80% of scheduled course contact hours
- How attendance and absences are recorded and calculated
- The process for assessing whether a student is meeting satisfactory attendance
- The point at which a student is deemed to have failed to meet attendance requirements
- The procedure for notifying students in writing if they are at risk of or have breached attendance requirements

Reporting and Appeals

If a student's attendance falls below 80%, Access Recognised Training Australia will:

1. Notify the student in writing of its intention to report them for unsatisfactory attendance.
2. Inform the student that they have the right to access the complaints and appeals process under Standard 8 of the National Code.
3. Provide the student with 20 working days to initiate an appeal.

If the student:

- Does not access the appeals process within 20 working days,
- Withdraws from the appeals process, or
- The appeal is unsuccessful,

Access Recognised Training Australia will proceed to report the student via PRISMS for not meeting attendance requirements, as soon as practicable.

Exceptions for VET Students

For students enrolled in vocational education and training (VET) courses, Access Recognised Training Australia may choose not to report the student for falling below 80% attendance only if:

- The decision is consistent with this documented attendance policy
- The student is maintaining satisfactory course progress
- The student's attendance is at least 70% of the scheduled course contact hours.

Monitoring Course Progress

Policy Overview

Access Recognised Training Australia systematically monitors, records, and assesses the course progress of each student enrolled in a CRICOS-registered course to ensure students meet visa conditions and course requirements. Student progress is assessed at the end of each compulsory study period.

Study Period Definition

A study period is defined as one semester, equating to approximately three months of study. The course requirements for each study period are outlined in the Access Recognised Training Australia timetable and must also be communicated to students at the beginning of the course, or if variable, at the start of each study period.

Definition of Unsatisfactory Progress

A student is considered to have made unsatisfactory progress if they:

- Fail to successfully complete or demonstrate competency in at least 50% of the course requirements in a study period.

Access Recognised Training Australia can identify this through its records and student assessment data.

Intervention Strategy

Access Recognised Training Australia has a documented Intervention Strategy to support students identified as at risk of not meeting course progress requirements.

This strategy must be made available to all staff and students and must include:

- Procedures for contacting and counselling students
- Support strategies, such as reassessment opportunities or additional academic support
- Guidelines for activating the intervention process

It may also include:

- Reviewing the suitability of the course for the student
- Providing opportunities for reassessment or competency demonstration
- Informing students that unsatisfactory progress in two consecutive study periods may lead to reporting to the Department of Home Affairs (DoHA), which may result in visa cancellation (subject to any appeals outcome)

Implementation and Timing

- Students are assessed for course progress at the end of each study period.
- If a student is identified for the first time as not making satisfactory progress, the intervention strategy will be activated within the first four weeks of the following study period.
- If a student is identified as at risk before the end of the study period, the intervention strategy will be implemented as early as practicable.

Second Consecutive Study Period of Unsatisfactory Progress

If a student does not make satisfactory course progress in a second consecutive compulsory study period, Access Recognised Training Australia will:

- Notify the student in writing of the intention to report them to DoHA.
- Advise the student of their right to access the complaints and appeals process (Standard 8).
- Provide the student with 20 working days to lodge an appeal.

Grounds for Appeal

Students may appeal on the following grounds:

- Incorrect calculation or recording of results by Access Recognised Training Australia
- Compassionate or compelling circumstances
- Failure by Access Recognised Training Australia to implement its intervention strategy or policies as documented

Appeal Outcomes

- If the appeal is successful due to administrative error, and the student is found to have made satisfactory progress, the student will not be reported and no further action is required.
- If the appeal confirms unsatisfactory progress, but there are compassionate or compelling reasons, the student will receive ongoing support through the intervention strategy and will not be reported.

Reporting to PRISMS

Access Recognised Training Australia will report the student through PRISMS if:

- The student does not access the appeals process within the 20 working days
- The student withdraws from the process
- The appeal is unsuccessful and the decision supports Access Recognised Training Australia

Reporting will be completed as soon as practicable after the outcome is finalised.

Transfer Policy

Policy Purpose

Access Recognised Training Australia supports the intent of the National Code 2018, which recognises international students as consumers with the right to exercise choice, while also acknowledging that they may require additional support when transitioning to study in Australia.

This policy outlines the procedures for managing requests to transfer to or from Access Recognised Training Australia in accordance with Standard 7.

Overseas Student Transfers

1. Enrolling a Transferring Student

Access Recognised Training Australia will not enrol an international student who is transferring from another CRICOS-registered provider before they have completed six months of their principal course, unless:

- The student provides a valid letter of release from their current provider; or
- The student supplies documentation that approximates a release, such as:
 - Evidence that the CoE was conditional on meeting entry requirements, and the student failed to meet those requirements.

In such cases, Access Recognised Training Australia will:

- Record a note in PRISMS outlining the circumstances; and
- Retain all supporting documentation in the student's file.

Note: A request for a Confirmation of Enrolment (CoE) for visa application purposes alone does not constitute a valid reason for transfer or an approximation of a letter of release.

2. Transferring Away from Access Recognised Training Australia

If a student wishes to transfer to another provider, Access Recognised Training Australia will issue a letter of release provided the student submits a:

- Written request; and
- Valid letter of offer from another registered provider confirming enrolment.

Where eligible, a letter of release will be issued within 10 working days of receiving the request.

3. Refusal to Provide a Letter of Release

Access Recognised Training Australia may refuse a request for release if the student:

- Fails to provide a valid offer of enrolment from another CRICOS-registered provider.

In such cases, the student will be:

- Provided with a written explanation outlining the reasons for refusal; and
- Advised of their right to appeal the decision in accordance with the Complaints and Appeals Policy (Standard 8).

4. Student Withdrawals

If a student withdraws from a course, Access Recognised Training Australia is obligated under the ESOS Act to notify the Department of Education via PRISMS within 14 days. This information is also shared with the Department of Home Affairs (DoHA) and may impact the student's visa status.

5. Refund of Fees

If a student transfers to another provider, any refund of course fees paid to Access Recognised Training Australia will be processed in accordance with the provider's Refund Policy, as outlined in the Letter of Offer & Acceptance and student handbook.

Complaints and Appeals Policy

Purpose

Access Recognised Training Australia is committed to resolving all student complaints in a fair, transparent, and timely manner. Wherever possible, complaints will be addressed informally to minimise disruption and reduce stress for all parties involved.

1. Informal Resolution

In the first instance, students are encouraged to attempt to resolve concerns informally by discussing the issue directly with the relevant staff member or their trainer. If the matter remains unresolved, a formal complaint may be lodged.

2. Lodging a Formal Complaint

If a complaint cannot be resolved informally, the student must submit a formal written complaint to Access Recognised Training Australia within five (5) business days of the incident.

- The complaint will be acknowledged in writing within five (5) business days, including an outline of the process and an estimated timeframe for resolution.
- Should there be any delays in the process, the student will be informed in writing and provided with a revised timeline.
- A review of the complaint will commence within ten (10) business days of receiving the formal complaint.

3. Outcome and Support

- A written statement of the outcome will be provided to the student, including details and reasons for the decision.
- If the outcome is in the student's favour, Access Recognised Training Australia will immediately implement the decision and any corrective actions required.
- Students have the right to be accompanied or assisted by a support person during any meetings related to the complaint or appeal.
- There are no fees for lodging a complaint or accessing internal and external appeals processes.

4. Maintaining Enrolment During a Complaint or Appeal

- Access Recognised Training Australia will maintain the student's enrolment throughout the internal and external complaints and appeals process if there is a risk of visa cancellation or deportation.
- If no such risk exists, enrolment will be maintained only during the internal process, with continuation during the external process at the discretion of Access Recognised Training Australia.

5. Appeals Process

Students may access the internal appeals process within 20 working days of receiving the outcome of their complaint.

If the student is not satisfied with the outcome of the internal appeal, they may escalate the matter to an external resolution body. In accordance with Standard 8.2, there is no cost for accessing the external appeals process.

The decision of the external appeals body will be considered final and binding for both parties.

6. External Complaint Options

International students may escalate complaints to the following external agencies:

Overseas Students Ombudsman

To lodge a complaint, visit:

www.ombudsman.gov.au/How-we-can-help/overseas-students

Australian Skills Quality Authority (ASQA)

To lodge a complaint, visit:

Please note:

- ASQA uses a risk-based approach and focuses on serious, systemic complaints.
- ASQA is not a student advocacy or consumer protection agency.
- Due to confidentiality and regulatory considerations, ASQA may not provide detailed feedback to complainants.
- For more information, refer to ASQA's Privacy Policy.

Legal Requirements for International Students

International students studying in Australia are protected under a comprehensive legal framework that ensures the quality and integrity of education services provided to overseas students.

This framework is known as the ESOS Framework, which sets out the responsibilities of education providers and the rights of international students.

A full description of the ESOS Framework is available electronically via the Department of Education at: <https://internationaleducation.gov.au/Regulatory-Information/Pages/Regulatoryinformation.aspx>

Key Legislation and Standards

The following documents govern the obligations of CRICOS-registered education providers and the entitlements of international students throughout their studies in Australia:

- The National Code of Practice for Providers of Education and Training to Overseas Students (National Code 2018)
- Education Services for Overseas Students Act 2000 (ESOS Act)
- Education Services for Overseas Students Regulations 2001

These laws are designed to:

- Ensure students receive accurate information before enrolling
- Protect tuition fees paid by international students
- Outline the responsibilities of education providers regarding course delivery, support services, student welfare, and compliance with visa conditions

It is important that all international students are familiar with their rights and obligations under these laws. For further information or support, please speak to the student services team at Access Recognised Training Australia.

Tuition Protection Service (TPS)

The Tuition Protection Service (TPS) is an Australian Government initiative designed to protect international students in the rare event that their education provider is unable to deliver their course of study.

The TPS ensures that international students are able to either:

- Complete their studies in a comparable course with another education provider, or
- Receive a refund of their unspent prepaid tuition fees.

Provider Default Obligations

In the unlikely event that Access Recognised Training Australia is unable to deliver a course you have paid for, and we do not meet our legal obligations to:

- Offer you an acceptable alternative course, or
- Provide a refund of your unspent tuition fees,

the Tuition Protection Service will step in to help you:

- Find a suitable alternative course, or
- Receive a refund if an alternative is not available
